

Sorawich [Surname]

Web Developer

SUMMARY

Web developer who builds web apps and the tools that keep websites healthy — from domain & SSL monitoring to React front-ends and WordPress themes. Writing code since 2016, from university projects in Java, Python and deep learning to full-stack JavaScript; today mostly React, Next.js and Node.js, shipped on Cloudflare's edge with automated CI/CD.

SKILLS

Languages	JavaScript, TypeScript, Python, Java, PHP, SQL
Front-end	React, Next.js, Vite, Tailwind CSS, shadcn/ui
Back-end & data	Node.js, Express, SQLite / Cloudflare D1, REST APIs
Cloud & DevOps	Cloudflare Workers & Zero Trust, GitHub Actions (CI/CD), Docker, Vercel
Mobile	React Native (Expo), Android (Java), Firebase
CMS	WordPress (custom themes), Git-based CMS

EXPERIENCE

[Role] · [Company] [Start] – Present

- [What you built or improved — ideally with a number, e.g. “cut report time by 30%”]
- [Another achievement]

SELECTED PROJECTS

SSL & Website Monitor · github.com/bankkk1996/ssl-monitor 2026

Cloudflare Workers · D1 (SQLite) · GitHub Actions · React · shadcn/ui · Cloudflare Access · LINE Messaging API

- Monitors TLS certificates, uptime and domain-registration expiry; owner-only dashboard behind Cloudflare Access with JWT verification.
- Certificate checks run on GitHub Actions (real TLS handshake) and report to the Worker; expiry lookups via RDAP with WHOIS fallback.
- Alerts on state changes only (down/up, certificate errors, expiry thresholds), merged into one LINE message per run; designed to stay within free-tier limits.

Personal website & CMS · sorawich.in.th 2026

React · Vite · Tailwind CSS · shadcn/ui · Sveltia CMS · Cloudflare Workers · GitHub Actions

- Prerendered React site with a Git-based CMS for editing content; every push is type-checked, built and deployed by CI/CD.
- Scheduled domain-expiry checks with reminders via GitHub issues, email and LINE.

Finance tracker · private 2026

Cloudflare Workers · D1 · React · shadcn/ui · Cloudflare Zero Trust

- Personal income & expense app with monthly summaries, spending by category and category management; API secured with Access JWT verification.

Node.js · Express · React · SQLite · Docker

- Full-stack domain & SSL expiry monitor with cron checks, per-user alert rules, LINE and email notifications, and a dashboard with charts.

Coach App2025WordPress Theme2025

React Native · Expo Router · NativeWind · TypeScript

- Mobile app for coaches.
- WordPress · PHP · CSS
 - Complete custom theme: front page, archive, page and 404 templates.

QR Code Check-In2025TrashToGo · Airfighters2020–2021

JavaScript · GitHub Pages

- Browser-based QR check-in with an admin search page.
- Android (Java) · Firebase · Google Maps
 - Waste-sorting app with recycling-factory map and web admin; a tilt-controlled 2D shooter game.
